

**PERSONAL  
DETAILS**

**Languages:** Fluent in English and Swahili, moderately fluent in French and Luo

**PROFILE  
SUMMARY**

A third-year student of Informatics and Computer Science who is highly motivated for a career in IT. I have successfully worked in teams to participate in several hackathons and provide IT solutions for various institutions. I have also worked in a remote capacity in the development of software solutions.

**CAREER  
OBJECTIVE**

My goal is to use my skills to contribute to development in the communities we serve by effectively collaborating with my colleagues and all other stakeholders to enhance value in the development agenda of our country especially given the recent push to digitalization.

**EDUCATION**

- **Bachelor of Science in Informatics and Computer Science** – Strathmore University, July 2017-2019 (Ongoing);
- **Certificate in Computer Applications** – CCA, Strathmore University, 2017;
- **International Computer Driving License** – ICDL, Strathmore University, 2017;
- **IT Essentials** – Cisco Networking Academy, 2017;
- **Kenya Certificate of Secondary Education** – Grade A-, Maseno School, 2016.

**KEY SKILLS  
AND  
COMPETENCIES**

- Mastery of Android Programming, Server Management and Software Analysis and Design.
- Proficiency in the use of computer software such as Microsoft Office Packages, Adobe Packages and Integrated Development Environments.
- Mastery of Programming Languages such as Java, C++, C, Python, PHP, Html, CSS, JS and node.js
- Familiarity with frameworks such as Laravel and CodeIgniter.
- Portfolio management – Ability to plan, prepare effective action plans, organize work, execute approved development strategies and achieve results.
- Strong ability to develop and maintain ongoing working relationships with different stakeholders to help achieve business goals.
- Very good interpersonal skills in communicating and working with people from different backgrounds and an ability to work in a multicultural environment.
- Proven ability to handle multiple, competing priorities in an effective manner.

**WORK  
EXPERIENCE**

**Remote Android Development:**

.....

**April 2019 to present:**

I am working in a retention capacity with a private organization to further their android development projects. This work is done off-site with regular updates. The work is scheduled to be completed by late November 2019.

**Skills developed:**

- Effective project management using tools such as github to allow for collaboration and iteration.
- Time Management to ensure all deadlines are met and development is on schedule.

## **Community Based Attachment at the Texas Cancer Centre**

.....

### **January 2019 to March 2019:**

I sought out an attachment at the Texas Cancer Centre where I worked under the Matron, Jentrix Nyongesa, to provide services to inpatients and outpatients at the facility for a period of two months.

#### **Achievements during the attachment:**

- Effectively performed my duties which mainly involved administering of and mixing of cancer medication for patients as well as data entry into the system.
- Managed to effectively speed up the hospital's servers by troubleshooting and recommending an upgrade of the cabling technology which sped up data access.
- Assisted in the installation of a new radiology machine for the institution.
- Fostered team spirit during Valentine's by organizing with the staff to have roses delivered to all patients.
